6. HUB Report – Brendan O’Brien

a. Costco Hall has been experiencing a sewage smell for the past month. Facility Services has not identified a location or reason for the odor. Health and Safety came out and conducted some tests; there is no immediate health risk to the campus. Facilities Services has installed new air vents in Costco Hall to try and reduce the smell inside the building. The loading dock may need to be looked at, especially since that is where all of the sewage links up from four nearby buildings. Any updates on the matter will be announced at the next meeting.

b. Feed Your Brain Request – This program was started by the HUB in the middle of the last year to provide snacks and coffee for students studying for finals. The expense is $4,400.90. The event draws a larger crowd to campus from 1:00 pm – 4:00 pm, ranging December 8, 2017, to December 14, 2017, in HUB 302. Alex Ruiz wanted confirmation on whether the snacks provided were healthy options, which they are, but Brendan will consider working with dining on expanding the options.

c. Microwaves Request – 2 microwaves will be placed in the transfer and commuter lounge. 2 microwaves will be replaced on the HUB first floor. The expense is $774.86.

d. Facility Service Level Agreement (SLA) – HUB facility staff is being combined with the rest of the general campus facility staff. Quality and staffing the HUB should not diminished. Approval to take place during the December Meeting after Brendan meets with facilities. Alex Ruiz mentioned that we need to look
for any changes to be made regarding the SLA to make sure that the HUB building is maintained and kept up to standard.

7. Food Service Report – Robin Hungerford, Director of Retail Dining and Hospitality Services
   a. Glad to report that Chronic Tacos and Hibachi-San is now open. Habit will be open in the next week, and will be doing a charity day to get their team trained; all proceeds will be donated to R'Pantry.
   b. Lewis Luartz asked about breakfast options on campus; Habit and Subway are the sole providers. The project for the Barn will begin at the end of Winter Quarter.
   c. Lewis Luartz asked about mobile ordering at Chronic Tacos, as well as the rest of the campus. Because Chronic Tacos is new to the college food-scene, their mobile ordering will most likely be delayed until their team adjusts to the large demand. Mobile ordering for the rest of the dining options is being considered for the future, possibly with Tapingo. Shawn Ragan asked if this system had delivery for the mobile orders placed, to which Robin responded that Topingo does; they just need to work out the smaller details if this system is put into place at UCR.
   d. Alex Ruiz asked about how the Barn Project will affect the crowding of other dining options. The first response is to have food trucks near the University Theatre and build a seating area near the oak trees. Another response is a buffet at the Alumni center. The third is to expand Ivan’s inside Hinderaker Hall.
   e. Lewis Luartz asked about Vegan options on campus. Dining is currently working on expanding these options.
